ABOUT ME

Dedicated software developer with a track record of developing, testing, and maintaining critical systems. Skilled in adapting to new technologies and committed to delivering high-quality results under tight deadlines. Passionate about continuous learning and improving processes to drive efficiency and innovation.

WORK EXPERIENCE

Aug 2019 - Nov 2021
Itaú Unibanco - São Paulo, Brazil

Software developer

- Developed a microservice from a monolithic application to modernize and enhance the business account opening system, leading to a significant increase in new account requests from less than 1k to 15k+ per week.
 - Utilized Java and Spring Boot Framework to create RESTful APIs.
 - Maintained a .NET application managing information in Microsoft SQL Server.

Apr 2014 - Aug 2019
Atech S/A - Grupo Embraer - São Paulo, Brazil

Software developer

- Implemented new features in the airspace control system for Brazilian aeronautical use.
 - Developed and maintained Java and C codebases.
 - Maintained Java system responsible for entering and managing airplane data in an Oracle database.
- Implemented new features to a new meteorological system used for aeronautical purposes.
 - Implemented meteorological rules in a REST API using Java and Spring Boot Framework.
